

Shackleton's Incredible Journey

THE GAME

Goal: Follow the journey of Ernest Shackleton as he and his crew battled the hardships of cold, moving ice floes, the sinking of the *Endurance*, struggles for survival, extremely hazardous sailing in a 22ft. lifeboat, hiking over mountain-clad glaciers, and numerous aborted attempts of returning to his crew only to finally save his crew through his leadership, perseverance, problem-solving, and clarity in making many difficult decisions.

Directions:

- Start your pawn on step 1. (Each person receives a turn whether correct or incorrect.)
 - **For every correct answer**, move forward another step on your journey.
 - If you have **an incorrect answer**, try to answer another question from the deck. **If you are correct on that try, move forward to the next step. If you are incorrect, move backward 1 step.**
- When you finish with your card from the deck, place it on the bottom of the deck. Reshuffle the deck when everyone has gone through all of the cards.
- **REMEMBER**, just like Ernest Shackleton, never give up despite the hardships. **The goal is to finish the journey.**

Challenge Round: Just as it took Shackleton and his crew 22 months to return from their journey, see if you can take a successful solo journey in under 22 minutes.
